

A comprehensive industry solution built on Microsoft Dynamics 365 Business Central to meet the specific needs of the sign industry.

INFOTECH SIGN365 is a comprehensive industry solution built on Microsoft Dynamics 365 Business Central to meet the specific needs of the sign industry. Business processes have been enhanced to support the project/job-oriented nature of this industry and the processes required to sell, fabricate and install industrial signage. INFOTECH SIGN365 can be implemented with Business Central as an entirely new ERP solution for companies that do not already have Business Central or can be implemented as an enhancement to existing Business Central ERP deployments.

Features Enhanced by Process Area

- **General:** Base templates, role centers, folder templates, screens, comment fields and functionality to support project nature of sign business
- **Financial Management:** Project focus for role center, profitability, cost tracking, invoice and payment tracking
- **Sales & Service Management:** Subcontractor management, project creation from opportunity, customer deposits
- **Project Management:** Expanded project management: templates, estimating, costing, tasks, resources
- **Supply Chain Management:** Procurement of materials to projects, recurring items, applied margin, inventory
- **Operations Management:** Time tracking to projects (multi), costing and payroll support, bar/QR code entry
- **Reporting & Analytics:** Over 90 reports, KPI's, commissions, attach files, emails, photos, videos
- **Workflows and Notifications:** Approvals, incoming document notification, PowerBI and PowerAutomate Integration
